Scientific Committee of Advanced Intervention and Disease Modification

to SCAD 2024

We are thrilled and delighted to extend a heartfelt welcome to you at the 1st SCAD taking place on August 15th and 16th, 2024, at the luxurious Pharma Beach Dynamic and Enriching Experience for All. Your presence marks the beginning of what we hope will be an enriching and engaging experience, setting the stage for many more insightful gatherings to come. It is the first and never to be the last with many rewarding experiences for you at SCAD.

This conference is designed to delve into the most pressing and debated topics in cardiology today. We will explore gray areas and potential controversies in the guidelines, address real-world clinical challenges, and engage in thought-provoking discussions. Prepare to be inspired by cutting-edge advancements in pharmacology, strategies, and interventions for ischemic heart disease, structural interventions, and acute cardiac situations.

We will also spotlight the latest practices and educational innovations in the field through insightful case-based discussions.

We are particularly excited at SCAD 2024 to host the Ischemia-Antithrombotic Forum exploring the evolving landscape of anti-platelets, and anti-coagulants across various clinical scenarios. As well as the Ischemia-Heart Failure-Hypertension Forum providing a comprehensive and stepwise approach according to the latest strategies for managing heart failure and hypertension.

These dedicated sessions will provide in-depth analysis of the evolving landscape of anti-platelet, anti-coagulant, and blood thinner therapies, as well as the latest strategies for managing heart failure and hypertension.

We believe that SCAD 2024 is more than just a conference; it's a platform for knowledge sharing, networking, and professional growth that will equip you with the tools you need to excel in your cardiology practice.

We are committed to creating an exceptional experience for you.

Thank you for being a part of this exciting journey at SCAD 2024. We are confident that your experience here will be both impactful and memorable.
